Time: 8 p.m.

Since 2011, the Fondation d'entreprise Hermès has been involved in the creation of new works for the stage, from production right through to their presentation before the public. Via its annual, international call for projects, **New Settings** selects artists from every background and accompanies them for the duration of their projects, from the conception up to the programming of the performances at partner institutions in the Paris region over the course of the following season.

The renewal of forms is a key aim of the programme, and the Foundation encourages artists to venture into uncharted territory, to cross disciplines and to dream up fruitful, innovative collaborations.

Audacity and experimentation are the hallmarks of those who benefit from this support. Fashioned through the stimulation of cross-fertilisation, their creative gestures result in ambitious, ground-breaking productions, which, season after season, enlarge the possibilities for the performing arts.
